The Oxford Handbook of Philosophy of Religion - William Wainwright 2004-12-16

The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible manner. Each chapter is expository, critical, and representative of a distinctive viewpoint.

John Hick's Pluralist Philosophy of World Religions - Paul Rhodes Eddy 2020-08-27

This title was first published in 2002. One of the most fascinating and controversial interpretations of religious diversity is 'religious pluralism.' According to John Hick's model of religious pluralism, all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality. This book offers an exposition of, and critical response to, John Hick's model. Introducing the various interpretations of religious diversity being discussed today, this book presents constructive suggestions as to how things could be further developed to offer a more accurate, less confusing presentation of the various options in theology of religions. The standard threefold typology of responses to religious diversity - exclusivism, inclusivism, and pluralism - are explained and defended. Hick's pluralist interpretation of religious diversity is traced, culminating in a critical assessment of Hick's pluralistic model and an up-to-date summary of a variety of critiques directed toward Hick's proposal. Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long-cherished goals, a robust religious realism and a consistent religious pluralism, whilst overcoming the most difficult problem for the pluralist, the fact that the world's religions understand the divine in often contradictory ways.

Oxford Readings in Philosophical Theology: Providence, scripture, and resurrection - Michael C. Rea 2009

"Over the past sixty years, within the analytic tradition of philosophy, there has been a significant revival of interest in the philosophy of religion. More recently, philosophers of religion have turned in a more self-consciously interdisciplinary direction, with special focus on topics that have traditionally been the provenance of systematic theologians. The present anthology aims to bring together some of the most important essays on six central topics in recent philosophical theology. Volume 1 collects essays on three distinctively Christian doctrines: trinity, incarnation, and atonement. Volume 2 focuses on three topics that arise in all the major theistic religions: providence, resurrection, and scripture." --Book Jacket.

Key Terms in Philosophy of Religion - Raymond J. VanArragon 2010-08-19

Key Terms in Philosophy of Religion offers a clear, concise and accessible introduction to a central topic in philosophy. The book offers a comprehensive overview of the key terms, concepts, thinkers and major works in the history of this key area of philosophical thought. Ideal for first-year students coming to the subject for the first time, Key Terms in Philosophy of Religion will serve as the ideal companion to study of this fascinating subject. Raymond J. VanArragon provides detailed summaries of all the key concepts in the study of philosophy of religion. An introductory chapter provides context and background, while the following chapters offer detailed definitions of key terms and concepts, introductions to the work of key thinkers, summaries of key texts and advice on further reading. Designed specifically to meet the needs of students and assuming no prior knowledge of the subject, this is the ideal reference tool for those coming to philosophy of religion for the first time.

God - Alexander Waugh 2014-06-03

This is a book about God. Not just any god, but the god that created Adam and Eve; the god of Abraham, the god of the Jews; the god of the

Christians; and the god of Islam---without a doubt, the most influential figure in the history of human civilization. But what do we really know about him? Who is he? Where did he come from? What does he look like? What sort of character does he have? What, if anything, does he eat? Does he have a family? In what ways can he be said to even exist at all? Alexander Waugh has been asking questions like these for as long as he can remember. Now, having drawn from an enormous range of sources, from the sacred books of the Torah, the Christian New Testament, and the Islamic Qur'an, from the Greek Apocrypha and the ancient texts of Nag Hammadi to the Dead Sea Scrolls, he has sought out the answers. Using material gleaned from the diverse writings of saints, rabbis, historians, prophets, atheists, poets, and mystics, he has molded his findings into a singular, striking biographical portrait of God. Erudite, perceptive, and entertaining, God reveals many startling and unexpected characteristics of the divine being. From the simple stories of Genesis and Job, explored from God's own viewpoint, to the prophecies of Muhammad and Sybil and the intricate philosophies of Newton and Nietzsche, Alexander Waugh has left no stone unturned in his compulsive mission to create a fascinating and complex portrait of God, as humans have claimed to understand him.

Philosophical Problems and Arguments - James W. Cornman 1992-01-01

Widely used by instructors who emphasize the logical structure of philosophical theories and the dialectical play of argument, this popular work provides clear, reliable, and up-to-date discussions of central philosophical debates. The fourth edition incorporates major revisions--the first since 1982--and features an extensive change in content. Every chapter has been reworked to improve its organization, to make it more accessible and engaging to the student, and to reflect recent discussions. **Biology, Religion, and Philosophy** - Michael Peterson 2021-04-08

A comprehensive and accessible survey of the major issues at the biology-religion interface.

What is this thing called Philosophy of Religion? - Elizabeth Burns 2017-10-02

What is this thing called Philosophy of Religion? grapples with the core topics studied on philosophy of religion undergraduate courses including: the meaning of religious language, including 20th century developments the nature of the Divine, including divine power, wisdom and action arguments for the existence of the Divine challenges to belief in the Divine, including the problems of evil, divine hiddenness and religious diversity believing without arguments arguments for life after death, including reincarnation. In addition to the in-depth coverage of the key themes within the subject area Elizabeth Burns explores the topics from the perspectives of the five main world religions, introducing students to the work of scholars from a variety of religious traditions and interpretations of belief. What is this thing called Philosophy of Religion? is the ideal introduction for those approaching the philosophy of religion for the first time, containing many helpful student-friendly features, such as a glossary of important terms, study questions and further reading.

African Religions & Philosophy - John S. Mbiti 1990

"African Religions and Philosophy" is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa. In this second edition, Dr Mbiti has updated his material to include the involvement of women in religion, and the potential unity to be found in what was once thought to be a mass of quite separate religions. Mbiti adds a new dimension to the understanding of the history, thinking, and life throughout the African continent. Religion is approached from an African point of view but is as accessible to readers who belong to non-African societies as it is to those who have grown up in African nations. Since its first publication, this book has become acknowledged as the standard work in the field of study, and it is essential reading for anyone

concerned with African religion, history, philosophy, anthropology or general African studies.

A Dictionary of Philosophy of Religion, Second Edition - Charles Taliaferro 2018-01-25

A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars. Covering historical and contemporary figures, arguments, and terms, it offers an overview of the vital themes that make philosophy of religion the growing, vigorous field that it is today. It covers world religions and sources from east and west. Entries have been crafted for clarity, succinctness, and engagement. This second edition includes new entries, extended coverage of non-Christian topics, as well as revisions and updates throughout. The first edition was named a Choice Outstanding Academic Title of the Year.

Philosophy of Religion - Michael L. Peterson 1996

The articles cover the standard topics, including religious experience, theistic arguments, the problem of evil, and miracles, as well as topics that have gained the attention of philosophers of religion in the last fifteen years, such as reformed epistemology, the philosophical analysis of theological doctrine, and the kalam theological argument. The collection also includes topics often requested by instructors but seldom covered in competing texts, such as religion and science, religious pluralism, process theism, and religious ethics, offering greater flexibility in choosing exact topics for use in courses. The format of the book makes it an ideal teaching text, as each section begins with a brief introduction to the central topic or issue treated by the readings which follow.

A Dictionary of Philosophy of Religion - Charles Taliaferro 2010-08-19

A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars. Covering historical and contemporary figures, arguments, and terms, it offers an overview of the vital themes that make philosophy of religion the growing, vigorous field that it is today. It covers world religions and sources from east and west. Entries have been crafted for clarity, succinctness, and engagement. Named a Choice Outstanding Academic Title (2011).

Philosophy of Religion - Keith E. Yandell 2002-01-22

In this lucid introduction to the philosophy of religion Keith Yandell covers central issues and figures, as well as representative views from Judaism, Christianity, Islam, Hinduism, Buddhism and Jainism.

The Problem of Evil - Michael L. Peterson 2017

Of all the issues in the philosophy of religion, the problem of reconciling belief in God with evil in the world arguably commands more attention than any other. For over two decades, Michael L. Peterson's *The Problem of Evil: Selected Readings* has been the most widely recognized and used anthology on the subject. Peterson's expanded and updated second edition retains the key features of the original and presents the main positions and strategies in the latest philosophical literature on the subject. It will remain the most complete introduction to the subject as well as a resource for advanced study. Peterson organizes his selection of classical and contemporary sources into four parts: important statements addressing the problem of evil from great literature and classical philosophy; debates based on the logical, evidential, and existential versions of the problem; major attempts to square God's justice with the presence of evil, such as Augustinian, Irenaean, process, openness, and *felix culpa* theodicies; and debates on the problem of evil covering such concepts as a best possible world, natural evil and natural laws, gratuitous evil, the skeptical theist defense, and the bearing of biological evolution on the problem. The second edition includes classical excerpts from the book of Job, Voltaire, Dostoevsky, Augustine, Aquinas, Leibniz, and Hume, and twenty-five essays that have shaped the contemporary discussion, by J. L. Mackie, Alvin Plantinga, William Rowe, Marilyn Adams, John Hick, William Hasker, Paul Draper, Michael Bergmann, Eleonore Stump, Peter van Inwagen, and numerous others. Whether a professional philosopher, student, or interested layperson, the reader will be able to work through a number of issues related to how evil in the world affects belief in God.

Philosophy of Religion - 2013-08-05

Philosophy of Religion: The Basics offers a concise introduction to philosophy of religion, distilling key discussions and concepts of the subject to their succinct essence, providing a truly accessible entry into the subject. A truly accessible introduction to philosophy of religion for beginners Takes a topical approach, starting with the nature of religion and moving the reader through the major concepts, explaining how topics connect and point to one another Offers a thorough and full treatment of diverse conceptions of God, the ontological argument, and divine attributes and dilemmas A genuinely concise introduction, this

text can be used alongside other resources without overtaxing students Represents 30 years of experience teaching to undergraduates Includes a free downloadable file with key excerpts and additions to help students study

Philosophy of Religion - Beverley Clack 2008-06-03

The first publication of Beverley Clack and Brian R. Clack's exciting and innovative introduction to the philosophy of religion has been of enormous value to students, as well as providing a bold and refreshing alternative to the standard analytic approaches to the subject. This second edition retains the accessibility which made it popular for both teachers and students, while furthering its distinctive argument that emphasises the human dimension of religion. The text has been fully revised and updated. The traditional emphasis on the arguments for the existence of God is reflected in a newly extended and reworked investigation into natural theology. Recent developments in the subject are also reflected in updated chapters, and, in a move that highlights the originality of the authors' approach, they offer a critical engagement with current world events. An entirely new concluding chapter interrogates the connection between religion and terror, and demonstrates how philosophy of religion might be conducted under the terrible shadow of 9/11. This new edition of *The Philosophy of Religion* will continue to be essential reading for all students and practitioners of the subject.

This is Philosophy of Religion - Neil A. Manson 2021-03-23

A reader-friendly introduction to the essential concepts, theories, and questions in analytic philosophy of religion Does God exist? If so, what is God's relationship to us? Do we have free will? This is *Philosophy of Religion* surveys foundational topics in the philosophy of religion using a clear and accessible style. Straightforward and easy to comprehend for those with no prior philosophical background, this engaging introduction familiarizes readers with the vocabulary, methods, and major concepts in the philosophy of religion, and invites them to think through questions which arise in the intersection of philosophy, theology, and religious studies. Part of the popular *This is Philosophy* series, this book applies the basic investigative methods of philosophy to questions of religion, faith, and morality. Chapters offer a framework for thinking about religion, present arguments for and against the existence of God, discuss religious diversity, consider the intellectual co-existence of faith and reason, and examine different theories about why people are religious. Examples and illustrations taken from popular culture reinforce the subject's contemporary relevance, and are complemented by a wealth of online resources for instructors on the *This is Philosophy* series site that encourage further reading and strengthen student comprehension of key concepts. A dependable introduction to the philosophy of religion, *This is Philosophy of Religion* is an ideal gateway to the discipline for readers who want to engage with questions about religion and contemplate the philosophical implications of religious belief.

Pragmatic Philosophy of Religion - Ulf Zackariasson 2022-02-25

Taking the pragmatic insistence on the primacy of practice seriously, this book argues for the fruitfulness of a pragmatic philosophy of religion by bringing it to bear on a number of classical topics within the philosophy of religion: miracles, religious diversity, and what it is to be religiously mistaken.

Reason & Religious Belief - Michael L. Peterson 2009

What is the status of belief in God? Must a rational case be made or can such belief be properly basic? Is it possible to reconcile the concept of a good God with evil and suffering? In light of great differences among religions, can only one religion be true? The most comprehensive work of its kind, *Reason and Religious Belief*, now in its fourth edition, explores these and other perennial questions in the philosophy of religion. Drawing from the best in both classical and contemporary discussions, the authors examine religious experience, faith and reason, the divine attributes, arguments for and against the existence of God, divine action (in various forms of theism), Reformed epistemology, religious language, religious diversity, religion and science, and much more. Retaining the engaging style and thorough coverage of previous editions, the fourth edition adds a critical new chapter on the ontological status of religion and the nature of religious claims. It also features revised treatments of omnipotence, miracles, and providence and updated suggestions for further reading. A sophisticated yet accessible introduction, *Reason and Religious Belief, Fourth Edition*, is ideally suited for use with the authors' companion anthology, *Philosophy of Religion: Selected Readings, Third Edition* (OUP, 2006).

Free Will in Philosophical Theology - Kevin Timpe 2013-11-21

Free Will in Philosophical Theology takes the most recent philosophical

work on free will and uses it to elucidate and explore theological doctrines involving free will. Rather than being a work of natural theology, it is a work in what has been called clarification using philosophy to understand, develop, systematize, and explain theological claims without first raising the justification for holding the theological claims that one is working with. Timpe's aim is to show how a particular philosophical account of the nature of free will an account known as source incompatibilism can help us understand a range of theological doctrines.

The Philosophy of David Lynch - William J. Devlin 2011-02-18

The editors, William J. Devlin and Shai Biderman, have compiled an impressive list of contributors to explore the philosophy at the core of David Lynch's work. Lynch is examined as a postmodern artist and the themes of darkness, logic and time are discussed in depth.

Approaching Philosophy of Religion - Anthony C. Thiselton 2018-01-16

Encountering philosophy of religion for the first time, we are like explorers arriving on an uncharted coastline. This introduction from Anthony Thiselton is divided into three parts, first mapping the main approaches, then introducing us to the major ideas and thinkers, and finally giving concise explanations of all the words and phrases readers need to know.

Advances in Religion, Cognitive Science, and Experimental Philosophy - Helen De Cruz 2016-01-28

Experimental philosophy has blossomed into a variety of philosophical fields including ethics, epistemology, metaphysics and philosophy of language. But there has been very little experimental philosophical research in the domain of philosophy of religion. *Advances in Religion, Cognitive Science, and Experimental Philosophy* demonstrates how cognitive science of religion has the methodological and conceptual resources to become a form of experimental philosophy of religion. Addressing a wide variety of empirical claims that are of interest to philosophers and psychologists of religion, a team of psychologists and philosophers apply data from the psychology of religion to important problems in the philosophy of religion including the psychology of religious diversity; the psychology of substance dualism; the problem of evil and the relation between religious belief and empathy; and the cognitive science explaining the formation of intuitions that unwittingly guide philosophers of religion when formulating arguments. Bringing together authors and researchers who have made important contributions to interdisciplinary research on religion in the last decade, *Advances in Religion, Cognitive Science, and Experimental Philosophy* provides new ways of approaching core philosophical and psychological problems.

The Reformed Objection to Natural Theology - Michael Sudduth 2016-02-24

Michael Sudduth examines three prominent objections to natural theology that have emerged in the Reformed streams of the Protestant theological tradition: objections from the immediacy of our knowledge of God, the noetic effects of sin, and the logic of theistic arguments. Distinguishing between the project of natural theology and particular models of natural theology, Sudduth argues that none of the main Reformed objections is successful as an objection to the project of natural theology itself. One particular model of natural theology - the dogmatic model - is best suited to handle Reformed concerns over natural theology. According to this model, rational theistic arguments represent the reflective reconstruction of the natural knowledge of God by the Christian in the context of dogmatic theology. Informed by both contemporary religious epistemology and the history of Protestant philosophical theology, Sudduth's examination illuminates the complex nature of the project of natural theology and its place in the Reformed tradition.

Philosophy of Religion - John Cottingham 2014-09-15

Religious belief is not just about abstract intellectual argument; it also impinges on all aspects of human life. John Cottingham's *Philosophy of Religion* opens up fresh perspectives on the philosophy of religion, arguing that the detached neutrality of much of contemporary philosophizing may be counterproductive - hardening us against the receptivity required for certain kinds of important evidence to become salient. This book covers all the traditional areas of the subject, including the meaning of religious claims, the existence of God and the relation between religion and morality, as well as the role of spiritual praxis and how religious belief affects questions about the meaning of life, human suffering and mortality. While preserving the clarity and rigor that are rightly prized in the analytic tradition, the book also draws on insights

from literary and other sources, and aims to engage a wide readership.

The Culture and Philosophy of Ridley Scott - Adam Barkman 2013

While recognizing Scott's undeniable contributions to contemporary popular cinema, the volume does not shy away from honest and well-evidenced critique. Each chapter's approach correlates with philosophical, literary, or cultural studies perspectives. Using both combined and single-film discussions, the contributors examine such topics as gender roles and feminist theory; philosophical abstractions like ethics, honor, and personal responsibility; historical memory and the challenges of accurately rendering historical events on screen; literary archetypes and generic conventions; race relations and the effect of class difference on character construction; how religion shapes personal and collective values; the role of a constantly changing technological universe; and the schism between individual and group-based power structures.

Philosophy of Religion - Stuart C. Brown 2001

Philosophy of Religion provides an introduction to philosophical thinking about central aspects of religion.

Reading Philosophy of Religion - Graham Oppy 2010-04-26

Reading Philosophy of Religion combines a diverse selection of classical and contemporary texts in philosophy of religion with insightful commentaries. Offers a unique presentation through a combination of text and interactive commentary Provides a mix of classic and contemporary texts, including some not anthologized elsewhere Includes writings from thinkers such as Aquinas, Boethius, Hume, Plantinga and Putnam Divided into sections which examine religious language, the existence of God, reason, argument and belief, divine properties, and religious pluralism

Philosophy of Religion - John Hick 1990

A contemporary introduction to the main topics in the philosophy of religion written by a world-renowned philosopher.

Metaphysics: The Basics - Michael Rea 2014-03-26

Metaphysics: The Basics is a concise and engaging introduction to the philosophical study of the world and universe in which we live. Concerned with questions about reality, existence, time, identity and change, metaphysics has long fascinated people but to the uninitiated some of the issues and problems can appear very complex. In this lively and lucid book, Michael Rea examines and explains key questions in the study of metaphysics such as: • Can two things be in the same place at the same time? • Do creatures of fiction exist? • Are human beings free? • Is time travel possible? • Is there just one world or many worlds? With a glossary of key terms and suggestions for further reading, the book considers key philosophical arguments around *Metaphysics*, making this an ideal starting point for anyone seeking a full introduction to the debates both within and about metaphysics.

Readings in Philosophy of Religion - Linda Zagzebski 2009-03-30

Comprised of readings from ancient to modern times, this volume offers a comprehensive introduction to the central questions of the philosophy of religion. Provides a history of the philosophy of religion, from antiquity up to the twentieth century Each section is preceded by extensive commentary written by the editors, followed by readings that are arranged chronologically Designed to be accessible to both undergraduate and graduate students

Tools for Young Philosophers - Paul Timothy Jensen 2011-11-01

If you are an aspiring young philosopher or just curious about philosophy, this book will give you a jump-start. In about three hours' reading time you will become familiar with the most basic building blocks of philosophy and will become acquainted with twelve of the most influential philosophers in Western history. To make the information as memorable as possible, many of the terms are arranged in pairs so that you get two for the price of one and can quickly grasp how they are related. Other disciplines in the humanities use many of the same terms, so by mastering them you will also obtain tools for understanding historians, sociologists, psychologists, economists, and political scientists.

Readings in the Philosophy of Religion - Second Edition - Kelly James Clark 2008-02-14

Like the first edition, the second edition of *Readings in the Philosophy of Religion* covers topics in a point-counterpoint manner, specifically designed to foster deep reflection. Unique to this collection is the section on the divine attributes. The book's focus is on issues of fundamental human concern—God's suffering, hell, prayer, feminist theology, and religious pluralism. All of these are shown, in a lengthy introduction, to relate to the standard issues in philosophical theology—omnipotence, omniscience, immutability, goodness, and eternity. For this second

edition, each major section ends with an extended reflection by a philosopher who shows how to think through the issues raised in the preceding essays. Also included are a new section on the ontological argument with classical discussions by Anselm and Gaunilo, along with a new essay by Laura Garcia; a new section on religious language; new essays on the free will defense, theodicies, and feminist theology; and a new version of the cosmological argument that does not rely on the principle of sufficient reason.

Reason & Religious Belief - Michael L. Peterson 1998

Drawing from both classical and contemporary discussions, the authors examine topics of religious experience, faith and reason, theistic arguments, the problem of evil, religious language, miracles, life after death, and much more. The volume is enhanced by study questions and suggestions for further reading. The book also may serve as a companion to the authors' 1996 anthology, *PHILOSOPHY OF RELIGION*.

The Philosophy of Religion Reader - Chad V. Meister 2008

Reflecting current trends and research interests in the field this up to date introduction explores key writings from both the Western theistic tradition and from non-Western, non-theistic sources. It features: section introductions, discussion questions, extensive bibliographies and a supporting website.

The Philosophy of Religion - Beverley Clack 2019-05-29

For over twenty years, Beverley Clack and Brian R. Clack's distinctive and thought-provoking introduction to the philosophy of religion has been of enormous value to students and scholars, providing an approach to the subject that is bold and refreshingly alternative. This revised and updated edition retains the accessibility which makes the book popular, while furthering its distinctive argument regarding the human dimension of religion. The central emphasis of the philosophy of religion - the concept of God, and the arguments for and against God's existence - is reflected in thorough analyses, while alternative approaches to traditional philosophical theism are explored. The treatments of both the miraculous and immortality have been revised and expanded, and the concluding chapter updates the investigation of how philosophy of religion might be conducted in an age defined by religious terrorism. Clear, systematic and highly critical, the third edition of *The Philosophy of Religion* will continue to be essential reading for students and scholars of this fascinating and important subject.

Contemporary Debates in Philosophy of Religion - Michael L.

Peterson 2004

Recent years have seen growing popular absorption with "spirituality" in all its forms. But as this study shows, it is largely separated from theology. Spirituality has grown more self-referential and is subverted by consumerist mentality, while theology has grown critically proficient but uneasy in speaking from or to the heart of Christian mysteries. Through a study of exemplary writers such as Gregory of Nyssa, McIntosh recovers an understanding of the inner integrity of mystical consciousness and theological expression. The final chapters test the possibility of renewed conversation between spirituality and theology by drawing on spiritual traditions to re-think contemporary problems in Trinitarian thought, Christology, and the understanding of the self. This book offers not only an analysis of spirituality and theology in the eras of their united activity, but also a hermeneutic for the theological appropriation of spirituality and a sustained argument for the renewal of mystical theology.

Religion: The Basics - Malory Nye 2008-05-12

From the local to the global level, religion is - more than ever - an important and hotly debated part of modern life in the twenty-first century. From silver rings to ringtones and from clubs to headscarves, we often find the cultural role and discussion of religion in unexpected ways. Now in its second edition, *Religion: The Basics* remains the best introduction to religion and contemporary culture available. The new edition has been fully revised and updated, and includes new discussions of: the study of religion and culture in the twenty-first century texts, films and rituals cognitive approaches to religion globalization and multiculturalism spirituality in the West popular religion. With new case studies, linking cultural theory to real world religious experience and practice, and guides to further reading, *Religion: The Basics* is an essential buy for students wanting to get to grips with this hotly debated topic.

Feminist Philosophy of Religion - Pamela Sue Anderson 2004

Feminist Philosophy of Religion: Critical Readings brings together key new writings in this growing field.

Philosophy of Religion - C. Stephen Evans 2010-02-23

With over 40,000 copies in print since its original publication in 1982, Steve Evans's *Philosophy of Religion* has served many generations of students. In this new edition Zach Manis joins Evans in a thorough revamping of arguments and information, while maintaining the qualities of clarity and brevity that made the first edition so appreciated.
