Spanishness in the Spanish Novel and Cinema of the 20th - 21st Century - Cristina Sánchez-Conejero 2009-10-02

Spanishness in the Spanish Novel and Cinema of the 20th-21st Century is an exploration of the general concept of "Spanishness" as all things related to Spain, specifically as the multiple meanings of "Spanishness" and the different ways of being Spanish are depicted in 20th-21st century literary and cinematic fiction of Spain. This book also represents a call for a re-evaluation of what being Spanish means not just in post-Franco Spain but also in the Spain of the new millennium. The reader will find treatments of some of the crucial themes in Spanish culture such as immigration, nationalisms, and affiliation with the European Union as well as many others of contemporary relevance such as time, memory, and women studies that defy exclusivist and clear-cut single notions of Spanishness. These explorations will help contextualize what it means to be Spanish in present day Spain and in the light of globalization while also dissipating stereotypical notions of Spain and Spanishness.

Working-Class Organisations and Popular Tourism, 1840-1970 - Susan Barton 2005-05-20

Today, many people take the idea of holidays for granted and regard the provision of paid time off as a right. This book argues that popular tourism has its roots in collective organisation and charts the development of the working class holiday over two centuries. This study recounts how short, unpaid and often unauthorised periods of leave from work became organised and legitimised through legislation, culminating with the Holidays with Pay Act of 1938. Moreover, this study finds that it was through collective activity by workers--through savings clubs, friendly societies and union activity--that the working class were originally able to take holidays, and it was as a result of collective bargaining and campaigning that paid holidays were eventually secured for all.

Keywords for Travel Writing Studies - Charles Forsdick 2019-04-22

In its attention to the 'keywords of travel', *Keywords for Travel Writing Studies* takes into account the established status of studies in travel writing and the field's significance for an audience beyond the academy. It responds to what might be described as the 'mobility turn' in the arts and humanities over the past two decades. Each entry in the volume is around 1,000 words, and the style is more essayistic than encyclopaedic, with contributors providing a reflection on their chosen keyword from a variety of disciplinary perspectives. The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension; the aim is to give an overview of each term in its historical and theoretical complexity, providing readers with a clear sense of how

the selected words are essential to a critical understanding of travel writing. Each entry is complemented by an annotated bibliography of five essential items suggesting further reading.

Spain, Europe and the Wider World, 1500-1800 - John Huxtable Elliott 2009-06-29

When J. H. Elliott published *Spain and Its World, 1500-1700* some twenty years ago, one of many enthusiasts declared, "For anyone interested in the history of empire, of Europe and of Spain, here is a book to keep within reach, to read, to study and to enjoy" (*Times Literary Supplement*). Since then Elliott has continued to explore the history of Spain and the Hispanic world with originality and insight, producing some of the most influential work in the field. In this new volume he gathers writings that reflect his recent research and thinking on politics, art, culture, and ideas in Europe and the colonial worlds between 1500 and 1800. The volume includes fourteen essays, lectures, and articles of remarkable breadth and freshness, written with Elliott's characteristic brio. It includes an unpublished lecture in honor of the late Hugh Trevor-Roper. Organized around three themes—early modern Europe, European overseas expansion, and the works and historical context of El Greco, Velázquez, Rubens, and Van Dyck—the book offers a rich survey of the themes at the heart of Elliott's interests throughout a career distinguished by excellence and innovation.

Old Spain and New Spain - David Henn 2004

This is the first, book-length study of the six travel narratives published by the 1989 winner of the Nobel Prize for Literatures. Preliminary chapters focus on technical and thematic aspects of travel-writing, and on the author's approach to the genre. Cela's travel works, which appeared between 1948 and 1986, are examined in turn, with a focus on the construction of the narratives and also on the themes that are developed in each of them. There is an assessment of the author's treatment of topographical, cultural, historical, and social material in his accounts of the journeys he made through various areas and regions of Spain, as well as a consideration of the way in which these narratives reflect changes taking place in Spain during the Franco regime and in the decade following the dictator's death. David Henn teaches modern Spanish fiction, drama, and travel literature at University College London.

The Art of Travel - Alain De Botton 2008-11-19

Any Baedeker will tell us where we ought to travel, but only Alain de Botton will tell us how and why. With the same intelligence and insouciant charm he brought to *How Proust Can Save Your Life*, de Botton considers the pleasures of anticipation; the allure of the exotic, and the value of noticing everything from a seascape in Barbados to the takeoffs at Heathrow. Even as de Botton takes the reader along on his own peregrinations, he also cites such distinguished fellow-travelers as Baudelaire, Wordsworth, Van Gogh, the biologist Alexander von Humboldt, and the 18th-century eccentric Xavier de Maistre, who catalogued the wonders of his bedroom. *The Art of Travel* is a wise and utterly original book. Don't leave home without it.

An Essay on English Poetry; with Notices of the British Poets. New Ed - Thomas Campbell 1861

An Historical Essay on Modern Spain - Richard Herr 1974-11-20

"More political than cultural in its emphasis, this enormously detailed, scholarly yet thoroughly readable book about modern Spain under Franco should fascinate any reader curious to know what changes have been wrought in that country in the past 30 years. Professor Herr (UCLA and Berkeley) has researched painstakingly and drawn a clear, authentic and meaningful portrait of Spain today as it is rapidly being transformed from an agrarian society to one now predominantly industrial."-- Publishers Weekly "Professor Herr is also seeking the origins of modern Spain; his history is Aristotelian in that the end dominates the process. He seeks these origins in the later eighteenth century when the traditional order was perceived to be a bar to progress. A group of civil servants influenced by the European Enlightenment sought to bring Spain into Europe believing that industrial progress, education and agrarian reform would do the trick; but all their reforms were opposed by Catholic traditionalists. Hence the division into the 'two Spains.' Yet it is not the old crude version of two Spains, so often served up to explain everything from the failure of university reform to the Civil War, that Professor Herr plumps for. He sees the course of Spanish history explained by the rise and modification of the Moderado oligarchy. . . . he does throw out a lifeline in a sea of complexities and gives us the best short account of Franco Spain."--Spectator "This is a work of substantial interest and value which must be recommended as a well-balanced, readable, and scholarly introduction to a subject which has never ceased to be controversial and is still in the process of reinterpretation. . . . commands a high place among the general histories of Spain."--Journal of Modern History

Sounds of Vacation - Jocelyne Guilbault 2019-08-30

The contributors to *Sounds of Vacation* examine the commodification of music and sound at popular vacation destinations throughout the Caribbean in order to tease out the relationships between political economy, hospitality, and the legacies of slavery and colonialism. Drawing on case studies from Barbados, the Bahamas, Guadeloupe, Saint Martin, and Saint Lucia, the contributors point to the myriad ways live performances, programmed music, and the sonic environment heighten tourists' pleasurable vacation experience. They explore, among other topics, issues of authenticity in Bahamian music; efforts to give tourists in Barbados peace and quiet at a former site of colonial violence; and how resort soundscapes extend beyond music to encompass the speech accents of local residents. Through interviews with resort managers, musicians, and hospitality workers, the contributors also outline the social, political, and economic pressures and interests that affect musical labor and the social encounters of musical production. In so doing, they prompt a rethinking of how to account for music and sound's resonances in postcolonial spaces. Contributors.
